Report received from J&K HC CJ does not support claims on inability to access court there: SC

New Delhi. The Supreme Court on Friday said it has received a report from the Chief Justice of Jammu and Kashmir High Court and claims that people are unable to access the court there are not supported.

Senior advocate Huzefa Ahmadi, representing child right activists Inakshi Ganguly and Shanta Sinha who have alleged detention of children in Kashmir, had on September 16 told the apex court that people in the Valley are not able to approach the high court there. The bench had then sought a report from the chief justice of Jammu and Kashmir.

"We have received the report from the chief justice (of Jammu and Kashmir High Court) which does not support your statement," the bench also comprising justices S a Bobde and S A Nazeer told the counsel appearing for the petitioners.

A bench headed by Chief Justice Ranjan Gogoi said it would entertain the petition regarding alleged detention of children in Kashmir as the plea has raised "substantial issues" regarding minors.

During the hearing on Friday, the apex court directed the Juvenile Justice Committee of the Jammu and Kashmir High Court to file a report before it within a week on the issue of alleged detention of children in

Lucknow reports 125 dengue cases in 2 months

Lucknow.Lucknow has reported 125 cases of dengue in two months, with 13 more patients testing positive. The victims who have tested positive on Thursday include six females, one of them an 82-year-old woman.

Of the seven male patients, two are minor boys - aged 11 and 15 years.

The cases have come in from different localities inclding Gomti Nagar, Ruchi Khand, Hazratganj, Tikrohi, Bazarkhala, Salehnagar, Neelmatha, Indira Nagar, Sharda Nagar and Rajajipuram.

According to health officials, dengue fever has affected 173 persons in the state capital alone, with the

maximum number of cases being reported in August and September.

The officials said of the total breeding grounds found till date, 70 per cent were found in water accumulated in desert coolers. People need to clean coolers on a weekly basis or pour kerosene oil in the water tank to kill larvae, the officials said.

"A number of cases go unreported because people mistake the symptoms for viral fever which is also very common in this season," said a senior doctor of the Balrampur hospital.
